Summary

Computer Science & Engineering student (B.Tech, graduating 2027) with hands-on experience building full-stack web applications using the **MERN stack** and **Next.js**. Proficient in **React.js, Node.js, Express.js, MongoDB, RESTful API design**, and Generative AI technologies including **LLMs, RAG, LangChain** and **LangGraph**. Strong command of **Data Structures & Algorithms**.

Education

Oriental Institute of Science and Technology — Bhopal, Madhya Pradesh
BTECH in Computer Science and Engineering - CGPA 7.96/10 — *Aug. 2023 – 2027*

Rao's Rukmani Devi Public School, CBSE — Rajmarg, Narsinghpur
Class XII (Senior Secondary) - 85.4% — *2022*

Rao's Rukmani Devi Public School, CBSE — Rajmarg, Narsinghpur
Class X (Secondary) - 88.17% — *2020*

Technical Skills

Languages : Java, Python, JavaScript, HTML/CSS
Frameworks : React, Node.js, Next.js, Express.js, FastAPI, REST APIs
GenAI & LLM : Generative-AI, Agentic-AI, LLMs , RAG , LangChain, LangGraph, Vector search , Prompt Engineering
Databases : MongoDB, PostgreSQL, Redis, FAISS
Dev-Ops Tools : Git, GitHub, Vercel, JWT Authentication, Postman, AWS, Docker
Core Concepts : Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems

Projects

PlanPilot – Travel Planning Platform | *MERN Stack, Tailwind CSS, JWT* (Live Demo) — March – April 2026

- Built a full-stack travel planning platform that generates personalized itineraries from user preferences, powered by a custom **weighted-scoring algorithm**.
- Integrated the **OpenTripMap** and **Foursquare APIs** to fetch and process real-time travel data.
- Engineered backend pipelines for **data transformation** and categorization to ensure accurate recommendations.
- Implemented **JWT-based authentication** and a fully responsive UI using React.js and Tailwind CSS.

Cinemies – AI-Powered Movie Recommendation Platform | *MERN Stack, Python, FastAPI, PostgreSQL, FAISS*

- Developed a movie recommendation platform delivering personalized movie suggestions using **AI-powered semantic search .**
- Integrated the **TMDB API** to fetch real-time movie metadata, ratings, cast information, and trending content.
- Implemented semantic search and recommendation features using **BERT** Sentence Transformers and **FAISS vector** similarity search.
- Built secure authentication, **caching**, and scalable **REST APIs** with **FastAPI** and **Redis** to improve performance and user experience.

InsightFlow – AI-Powered Feedback Platform | *Next.js, TypeScript, MongoDB, Gemini API* — Sept - 2025

- Built a full-stack platform for collecting **anonymous user feedback** and reviews with **AI-powered** analysis.
- Integrated the **Gemini API** and **LLM-based workflows** to generate **review prompts** and summarize user feedback.
- Implemented secure authentication using **JWT validation**.
- Developed a responsive UI with Next.js and Tailwind CSS.

Achievements & Certifications

- NPTEL (IIT Kharagpur) – Certification in "Programming in Java", Elite + Silver Medal (87%).
- Participated in Smart India Hackathon and other college-level hackathons.
- Solved 300+ Data Structures & Algorithms problems on LeetCode.
